ServIt Hot Plate Heaters

IMPORTANT: Read all instructions before using this product. Save these instructions for future use.

- ServIt Hot™ plate heaters are ideal for party time, dinner time and any time when hot food is served.
- Good cooks all agree, hot food tastes better when served on a hot plate.
- Makes for elegant, fine restaurant style eating.
- Rims remain cool for handling and serving.
- Takes just seconds in the microwave – see chart below.
- Leaves room in the oven for cooking, and will not crack dishes due to excessive oven heat.
- Reusable and durable.
- Safe, non-toxic and easy to use.
- Dishwasher safe.

Lay the ServIt Hot™ plate heater flat on your dinner plate and place in your microwave. Multiple plates may be stacked.

Set the timer according to the chart and start the microwave on high setting.

Remove the ServIt Hot™ plate heater by grasping the gray area. You have an instant hot plate.

Approximate Time In Seconds			
1 Plate 20 - 40	2 Plates 40 - 60	3 Plates 50 - 70	4 Plates 60 - 80
5 Plates 70 - 90	6 Plates 80 - 100	7 Plates 90 - 110	8 Plates 100 - 120

Your time may vary depending on the type of plate and microwave oven.

Wash before first use.

Use one ServIt Hot™ plate heater per plate.

Use microwave and heat safe plates only.

Grasp only the gray area after heating in the microwave.

Do not overheat – optimal serving temperature is 150° F.

Do not use abrasive cleaners.

Not recommended for heating food directly.

Use by children should be supervised by an adult.

U.S Patent No. 5,508,498.
